In publishing a few days since the names of the Central Executive Com mittee of the Conservative-Democratic party of the State, we accidentally omitted the name of W. N. H. Smith, Esq.

The Ætna Life Insurance Company, represented by W. H. Crow, Esq., of this city, has just paid a policy of \$5,000 to the widow of the late James M. Williams, of Cumberland county. On vesterday morning, about three

miles South of this city, a colored man, whose name we could not learn, was thrown from a cart by a runaway horse, and striking a rock in the road, had his left leg broken. They have commenced to lay off

the warks in Nash Square Park. This grand city improvement will get acquainted with completion about the time the new government building gets finished, i. e. the Lord knows when.

The remains of J. B. Gayle, Esq., left this city, for Portsmouth, on yesterday morning. They were accompanied by a committee of Hiram Lodge, A. and F. M., of this city. The committee consisted of D. W. Bain, J. C. R. Little, T. W. Blake and Charles Klupelberger.

We learn that some uneasiness is felt in the surrounding counties over the announcement that the smallpox had made its appearance in this city. No danger whatever need be apprehended—only one case occurred in the city, and that was removed to a hospital four miles distant, where all persons are quarantined who was

in any manner exposed to it. The total registration of voters in the several wards of the city, up to close of books yesterday, is as follows: Whites. Colore 1.

stating this case said: this case, may it please the Court, while I have no legal yet I have strong moral evidence, together with a statement of the wife, which cannot be used against her husband, going to show that Badger Terrel committed the murder.

"It was a cowardly assassination. The deceased being shot at night through a key-hole, while sitting by the bedside of his sick wife, who was a sister of the prisoror Harriet, and while it is to be deeply regretted, yet I have no evidence which would entitle me to ask a verdict for the State in so grave a case from a jury, and I have held him so far, hoping that new disclosures might be made. He is not entitled to an acquittal, and

therefore I prefer to not pros. him.
"The woman, through disclosures made by herself, together with corroborative circumstances, I might possibly convict, but seriously question whether the ends of justice would be promoted to punish her. While she is merely an accessory, when her husband, who did the deed, must escape, especially when her confessions were made under circumstances of distress, while in prison, without advice and knowing not what to do.

"Therefore I will pursue the same course as to her. She and her husband having been in prison since before last Court. By this course they their Commissions renewed during do not really escape, but the case may be brought forward at any time the Solicitor may see proper and which should be done should other evidence be discovered."

A SERIOUS ACCIDENT TO A RAL-EIGH MAN.-The Durham Tobacco Plant in its issue of the 8th inst.. gives the following in regard to a se-

known citizen of this place: "Mr. L. M. Yearby, of the enterprising firm of Yearby & Rogers, Raleigh, N. C, made a narrow escape of his life last Monday morning. He was on a visit to his mother-in-law who lives some three miles from this place, and was in the yard loading his pistol when it accidentally fired off, the ball striking the lower part of his abdomen and passing down into his hip, where it lodged. He came to town that evening and left for Raleigh next morning. When we saw him, he experienced little or no pain, but we fear he will yet suf-fer a great deal with it."

SUPERIOR COURT.—This Court met at 9½ o'clock yesterday, his Honor, Judge Watts, on the bench. The following cases were disposed of, &c.:

Spring Meeting of the Tar River

Jockey Club Association at Runnymede l'ark, Tarboro, N. C.

The Spring races under the auspices of the Tar River Jockey Club Association, commenced at Runnymede Park, near Tarboro, on Tuesday and closed Wednesday. The crowd in attendance on both days was very full considering the inclement weather, and the beginning of the farming season.

The first days sport commenced with a trotting race, best 3 in 5 to harness, club purse of \$75, entries added. V. B. Sharp entered s. h., Bob

Lee. Benj. Whitney entered s. h., Sor-W. H. Weatherston entered b. h.,

George. The race was won easily by Bob Lee in 8:05, 2:56 and 2:52. The second was a running race, for a purse of \$75, 12 mile heats, best 2 in open only to members of the club. Entries.—D. H. Barlow, b. h. Billy

Bowlegs. Col. E. Cromwell, br. h. Johnny Reb. Capt. John S. Dancy, b h. Charlie. Dr. L. L. Staton, s. m. Fiora. Much interest was manifested on the result of this race, and bets of two

to one offered and taken on Flora against the field. Billy Bowlegs was second choice in the pools, while several small bets were taken on the positions of Johnny Reband Charlie, the latter being the favorite for the

rear position. On the start, Bowlegs took the lead, followed by Johnny Reb, Charlie and the mare; passing the stand on the first round, the mare proceeded to close up the gap of about twenty yards from the lead horse, and passed the stand on the second round locked with her long-winded antagonist, Johnny Reb, and Charlie gallantly struggling for the rear. On the last half mile, Flora gently yielded to the pressure on her bottom; Bowlegs passed briskly to the front and came out at the judge's stand fully three lengths in advance of Charlie, and winning the race in

The third race was for a running purse for \$20, 1 mile and repeat, and won easily by Erwin Clark's Charlie in 58 and 59 seconds, beating Dr. Staton's Bob.

The fifth was the most exciting race of the day, the contestants being classed as the finest blooded horses in the State, and doubtless the fastest. Single dash of a mile, Jocky Club purse of \$50. Entries-Piney Woods, by James

Faucett. Hope, by Dr. L. L. Staton. Piny Woods won the heat in 1:511 by only a half length.

SECOND DAY. First Race-Club purse for \$200, running: mile dash. Entries-Mary Long, by T. L.

Billy Bowlegs, by Chas. Bosier. This seemed to be the race of the occasion, and betting ran pretty high. Mary Long was the favorite, and bets of two to one were effered and taken. Emily won the pole and after several unaffectual attempts a fair start was made. Emily, fretting from the excitement occasioned by the number of false starts, failed to move off promptly and Rowlegs gained a start of about sixty feet, winning the inside track in less than a hundred yards from the stand. Bowlegs gallantly maintained this advantage throughout the first half mile, but on the second round the mare closed the gap handsomely, and at the last quarter passed the horse, retaking the pole. Down the home stretch the race was of the most exciting character. Billy made a desperate and determined effort to recover his lost ground, and though he gained every step on the last hundred yards yet the mare passed the stand a neck's length in advance. At this juncture the backers of Bowlegs claimed foul riding on the part of Mary Long's rider stating that the progress of Bowlegs was impeded at the point where the mare crossed to the pole. After consideration, the judges awarded the heat to Bowlegs. Mr. Emry, displeased with the decision, withdrew his mare from the track, but afterwards, by mutual consent, a dead heat was agreed upon, and the horses called up for another

trial. Bowlegs at the pole took the lead, closely pursued by the mare to the half mile stand, where it was evidently seen that the horse had both the wind and bottom, and all advantage was in his favor. From the half mile stand he gradually opened a gap between himself and the mare, and passed the stand several lengths ahead, winning the race and heat in

There were several other "catch" races during the day, a report of which is necessarily left out for lack of space. The races closed with a tournament, in which were nine entries;

that it did not last long. The dwelling of Maj. B. B. Vaughan, corner of Shore and Harding streets, was struck and several marks left to indicate the devastation of the storm. District Convention. The District Convention of the Democratic-Conservative party for the nomination of a candidate for Congress for the fourth Congressional District, will be held in the city of Raleigh on Tuesday, the 2nd day of June, 1874.

Every county in the District is earnestly requested to send a full delegation. Arrangements will be made with the various Railroads to pass delegates at half fare.

By order of the District Executive H. A LONDON, JR.,

Chairman. The Democratic-Conservative papers of the District will please copy.

THE Picayune says New Orleans is threatened with a slight dose of the women crusaders. It says "it will be a novel experience to see women penetrating into retreats before sacred to the manly sex."

Gov. INGERSOLL'S majority in Connecticut is about 2,500. The State Senate stands 17 Democrats to 4 Republicans; the House 143 Democrats to 96 Republicans and 2 Independents. It is a complete overturn.

QUEER, very. The National Republican says the Prohibitionists elected the Democrats in Connecticut. The Democrats obtained a majority rote of some 2,500. How does the Republican reconcile this fact with its assertion?

REPORTS from the Granges of Georgia and Alabama indicate that those bodies have definite views of their needs and of the means to gain them. The Georgia State Grange has advised 1st, the formation of direct trade arrangements; 2nd, the tillage of more grain land and less cotton land.

THE New York Times, Philadelphia Press, and other Republican papers in the the North, endeavor to soften the blow given them in Connecticut on Monday. The Times says the Republican party will not suffer serious injury from it "if the obvious suggestions of the result are heeded." If that party shall heed all the blows it will receive during the "off" year, it will be much wiser in 1875.

An exchange, referring to the late Democratic victory in Connecticut, says this is not only an "off" year with the Republican party, but an awful year. We rather think so, and if the true men of this State but stand shoulder to shoulder next August, the Republican party of North Carolina will be taught the same lesson which GRANTISM is receiving in the Eastern States.

MEMPHIS has learned a lesson, sad one though it was, from the terrible scourge which visited her last year. The Avalanche tells us that "the strict enforcement of sanitary regulations in Memphis has resulted in a great reduction of the rate of mortality. The Board of Health are cooperating with the police authorities, and the streets and alleys are systematically cleansed." Every city in the land should adopt such measures at this season of the year. As the warm weather approaches the necessity for sanitary measures increases.

AT A cremative meeting held in New York a few nights since, the constitution being in question, a section was proposed inviting all men to be members of the Cremative Association "of whatever creed or nationality." An additional amendment was adopted adding the word "color" in order that the civil rights bill should be observed in the reverberating furnaces of the future. The "man and brother" can now be roasted like other citizens.

A Washington letter writer says the work of Congress, so far as practical results are concerned, has never been more backward than at present and although the Committees have been in session quite as often as in previous sessions, they do not seem to have accomplished much. It is the general opinion that the session will be an unusually long one, some asserting that it will reach well into the month of July. All the important Committees still have much work before them, and some of the most important measures of the session are still to be considered.

A CORRESPONDENT of the New York Times (Radical,) writing from Raleigh, puts it in plain language. He says the colored portion of the Republican party must have a showing in the disposal of offices this summer in those sections where the darky predominates, or things won't go so smoothly as heretofore-or, in other words, if they are crowded out of the nominating conventions by those whites who only desire to use them, the offices in the counties where the blacks predominate will be filled by colored men. The corresthat the population of a city may be pondent acknowledges that this will doubled within ten years by means have the effect in the counties in of one distinguished, well-conducted which the whites predominate to and widely-circulated newspaper. weaken the Republican ranks, and

THE dead-lock in the Senatorial contest in Massachusetts continues, with no indications as to who will be the fortunate man. Dawes still ed up to fever heat. There are some holds the lead, while HOAR has fallen back considerably, his adherents evidently casting about. Curris still maintains the full Democratic strength. From appearances it would seem that the Legislature is determined to fight it out on this line if it takes them all the summer.

THE Republican delegation from South Carolina, who recently visited Washington to confer with President GRANT as to the statements made by the Tax-Payer's Convention of that State, is said to have informed that official that the taxes imposed were for the best interests of the people and of the State, and denied that the former delegation represented the tax-paying citizens of South Carolina. The President replied that he regarded their statements as a complete answer to the charges made by the other side. And thus the President of the United States upholds the rogues and plunderers of South Carolina. Truly, it is time for the country to unload.

The Cherokee Indians vs. Blount. The trial of Gen. JAMES T. BLOUNT, of Kansas, for his alleged swindling operations upon the Cherokee In-

dians of this State, is to come off at Greensboro next week. BLOUNT, with John T. Deweese and others, it is said, entered into a combination at Washington City during the year 868 to procure the appointment of a bankrupt vagabond by the name of SWETLAND as agent of the Cherokees and in the Spring of 1868 succeeded in having him appointed, and placed in his hands \$48,000 of the interest annuities of the Indians. SWETLAND came to North Carolina and after having made a divide with BLOUNT and Deweese before leaving Washington, exacted from each Indian. as he was paid off, twenty-five per cent. of the sum which still remained in his hands. The per capita allowance of each Indian was \$31; but after the payment of BLOUNT and DEWEESE's and other exactions there was only left to each one ten dollars of that amount. The indictment is for a conspiracy and will develop some interesting information as to the mode of administering the funds and finances of our Indian population. Besides this indictment there are civil suits pending against BLOUNT and DEWEESE in behalf of the Indians for the recovery of their money, and suits pending against W. H. THOMAS, a former agent of the Indians, for the recovery of some fifty or sixty thousand acres of land in the counties of Swain, Graham

Major ERWIN and Messrs. Wood-FIN and KEOGH appear for the government, and Messrs. LEACH, MEN-DENHALL and STAPLES for the defendants. It is expected the hearing of the case will cause some rich developments.

South.

The Newspaper Business in the Colonel JOHN FORSYTH, writing of the experience of the Mobile Register, says that "the Southern people do not sustain their newspapers as it is their plain interest to do," whereupon, the Louisville Courier-Journal says: "This is true in a certain sense; and yet the fault is not altogether with the people. The newspapers of the South, as a class, do not seem to have realized the change which has come into the business and spirit of journalism the last fifteen years. They lack mot merely the enterprise, which is requisite to success, but the cool common sense adaptability, which, united to industry, care and thrift, have built up the great Northern journals. The typical Southern editor of the old school, which still influences the Southern press, thought the people more interested in politics than in all other things. He consequently ignored everything for politics. The truth is, that, with a large majority of readers, politics is a secondary consideration. Current information, called news, stands first on the list of wants with the reading public. The rationale of this intelligence comes next, be it general or partisan, and hence the great newspapers of the world devote the better part of their editorial space to topics of domestic, financial, scientific, literary and social concern. The dreary waste of partisan platitude is abandoned for a more fruitful and extensive field of disquisition, and with its abandonment comes an increased audience of women and children, who now read the newspapers as eagerly as the men. It is this circumstance which has augmented the power of the press more than any of the many agencies that have elevated it from poverty to

IMPORTANT TO FARMERS!! riches, from vassalage to independence. Colonel Forsyth complains with more justice when he speaks of the lack of advertising enterprise among Southern merchants. The Southern merchant has yet to learn the same lessons in enterprise which wait on the Southern journalist. It is the opinion of a celebrated observer

THE tidings from the Second Congressional District represent political affairs in that section as being worktwo dozen or more whites who would be willing to draw the \$5,000 annually which now pasess into the pocket of one Thomas, while the colored aspirants for Congressional honors are to be found in every county if not in every township. HYMAN demands the nomination as a right of the upper end of the District and because of his color. O'HARA would consent to norate a piece in the Congressional halls if his party would see fit to force the office upon him. But a new aspirant is in the field in the person of Nason, white, who has just been "unloaded" by Grant; he s determined to punish somebody for being displaced, and can think of no better way than to walk into THOMAS' shoes. The Republican majority in that District is some 8,000, which elects any man nominated, whether he be black or white. The nominating Convention will doubtless be more lively than it was last year, which Convention was adjourned on Goodwyn's motion to 'adjourn to h-l."

The Finance Bill.

The following is the full text of the bill introduced by Senator MER-RIMON and adopted by the U.S. Senate a few days since by a vote of 29 to 24-all the Senators from this State and Virginia voting for it:

A BILL TO FIX THE AMOUNT OF UNI-TED STATES NOTES, AND OF THE CIRCULATION OF NATIONAL BANKS, AND FOR OTHER PURPOSES.

Be it enacted by the Senate and House of Representatives of the United States of America, in Congress Assembled, That the maximum amount of United States notes is

hereby fixed at \$400,000,000. Sec. 2. That forty-six millions in notes for circulation, in addition to such circulation now allowed by law, shall be issued to national banking associations now organized and which may be organized hereafter; and such increased circulation shall be distributed among the several States as provided in section one of the act entitled "An act to provide for the redemption of the three per centum temporary loan certificates. and for an increase of national bank notes," approved July 12, 1870; and each national banking association, now organized or hereafter to be organized, shall keep and maintain, as a part of its reserve required by law, one-fourth part of the coin received by it as interest on bonds of the United States deposited as security for circulating rotes or government deposits; and that hereafter only onefourth of the reserve now prescribed by law for national banking associations shall consist of balances due to an association available for the redemption of its circulating notes from associations in cities of redemption, and upon which balances no interest shall be paid.

His wife was out visiting and left the hildren at home, some three or four n number, the largest about ten years old and the youngest some two ears old. The older children were out in the yard playing, having left the child in the house. It clothes. by some means, caught on fire and everything, not a thread being left, was burned off. Dr. A. G. Carr was alled in, and we learned from him that not a single spot could be touched from the crown of its head to the sole of its feet that was not badly burned. Except in a few places the skin was burned entirely off and where it was not it was burned to a crisp. The child lived some twentyfour hours after the burning occur-

"Since the deat's of the child the mother has been in a state of almost to eless insanity. The remorse of conscience was more than she could bear, and that too after being upbraided by her friends for leaving her children without protection.'

The New York Evening Post says if the representations of the Times are true, the biographers of the Republican party may begin the work at once, for its sands are run. To which the Chicago Tribune adds: It does begin to look very much as though the eyes of the Republican party "is sot."

The Empress of Russia has sent to the Rev. Father Hatherly, of the Greek Church, at Wolverhampton, England, a handsome donation of money and a piece of altar plate, with the request, "Pray for the rest and peace of the soul of the Emperor

The amusing blunder which started the story that Longfellow was to spend the summer in Canada had the effect of calling out a warm invita-tion from the Governor General of the Dominion, Lord Dufferin, to the poet to visit Ottawa and partake of his hospitality.

The Democrats have carried the city elections in Cincinnati by a majority of about four thousand. In the City Council they will have a majority of fifteen on joint ballot. In other parts of the State the success was divided between the Temperance

and Democratic tickets. The second exploring expedition of the Portuguese in West Africa has failed utterly. Only seven men were left with the leader of the party. His brother, with those who accompanied him, were on their way back to the coast.

Notwithstanding the strikes among the workingmen, the master mechanics and builders of New York have determined that on and after the 1st of May they will not employ any men who are not willing to work ten hours a day.

It was proposed in Chicago to aid the women's whisky war by publishing the names of citizens who patronize the saloons, but the project was given up as soon as it was learned that the directory was copy-righted. A letter from Lima says that the Jesuits who came to Peru owing to the troubles in Germany, Italy and

Spain, will not be allowed refuge in that country. The Missouri Legislature has adjourned a:ter a ninety days' session. The St. Louis Republican says: "The

The unexampled success of this renowned manure during many years, ha for a reputation which few other fertilizers can claim. Its sales are very extensi in all parts of the country, especially in those parts of the South where cotton and corn are largely grown. So decided and positive have been its results on these important staples, that in many sections it is preferred to all other manures.

Whann's Raw Bone Super Phosphate

sprompt and active in its effects. It starts the young plant vigorously, and by furnishing a steady supply of nutriment during the period of its growth, brings the crop to a healthy maturity in time to escape the ravages of early frosts.

We offer this well-known fertilizer to our friends, confident that they will concur in the opinion of the leading planters of the South, that for Cotton and Corn it is unequalled.

MIDNIGHT DISPATCHES

Congressional-The Finance Measure in the House-An Exciting Vote-The Expansionists Success-

WASHINGTON, April 9.—House— The Committee on Ways and Means offered a bill repealing moleties; ordered to be printed and re-committed.

Butler, from the Judiciary Committee, reported a bill protecting persons acting in the interest of United States, and asked immediate consideration. Beck objected and it

Woodford's civil service bill forbidding moities and fees to the public officers, committed to the Ways and | mid lings 16%. Means, is dead.

Banking and currency resumed. After an exciting discussion on the currency bill, the opponents of the bill of all shades, under BILLIARD & BAGATELLE ROOM. the lead of Butler, of Massachusetts, voted down the previous question, and Butler having then got the control of the bill moved to postpone till Tuesday next, stating that he would follow that vote with a motion to go to the Speaker's table and pass the Senate bill. The motion to postpone was carried amid great excitement by 133 to 121. The expansionists voted for the postponement, the contractionists against it. The House then adjourned. The bill comes up the first thing to-mor-

SENATE.—The Committee on Claims reported a bill for the relief of the Methodist Church on Arlington Heights.

Gordon, from the Committee on Commerce, reported without amendment the House bill exempting from the provisions of the act of February 18, 1793, all boats employed on internal waters or canals of any State, and providing that all such boats, excepting only such as have sails or propelling machinery of their own adapted to lake or coastwise navigation, and excepting such as are employed in trade with Canada, shall be exempt from payment of all customs or other fees.
